Kolb Mark III Xtra: Manual and Drawings arrived
Kolb Mark III is a high-wing, strut braced taildragger with side-by-side seating. The bird is built from steel tube and aluminum, covered by normal aircraft fabric-materials. A bit more durable, this means the bird can be stored outside a lot more without fear of significant wing cover deterioration.

Kolb - EAA
Cons - Most Kolb designs, including the Mark III, are said to be "build intensive," though a quick-build option can cut the task by close to 50% depending on your level of customization. You'll invest some real money to have a plane like the one test-flown; a Mark III can cost considerably less with a smaller engine.

Mk III + 912 Archives - ByDanJohnson.com
"Xtra" - a word to make a computer spell-checker stumble -- is an appropriate name for this month's pilot's report. The New Kolb Aircraft Company Mark III Xtra side-by-side 2-seater. It literally offers extra in several ways pilots will like. The venerable Mark III has been through a series of changes since original company founder Homer Kolb first brought out a 2-seater called the ...
